SABSE PEHLE

Sab kaise juda hai

Teeno apps ek hi backend se baat karte hain, aur saara data ek hi Google Sheet mein rehta hai. Aap Admin console mein jo badalte hain, wo Sheet ke zariye app aur reports mein pahunchta hai.

Sheet tab	Isme kya hai	Kahan se badalta hai
Users	Log, role, password (hash)	Admin → Team, auditor sign-up
Farms	Farm, farmer, jagah, phone, type	Admin → Farms, auditor “Add a new farm”
Visits + Signatures	Har visit ka data, score, readings, sign	Auditor ka **Save visit**
Settings	Org naam, bhasha, metrics, limits, custom fields, sign-up	Admin → Metrics, Fields, Organisation
Sessions / Audit	Kaun sign in hai / kisne kya badla	Apne aap

Roles aur permissions

Kaam	Owner	Admin	Auditor	Viewer
Visit bharna / apne visit edit	✓	✓	✓	✗
Naya farm jodna	✓	✓	✓	✗
Farm edit / archive, visit delete	✓	✓	✗	✗
Reports dekhna	✓	✓	✓ **sab visits**	✓ **chune farms**
Team, metrics, settings	✓	✓	✗	✗
Naya Owner banana	✓	✗	✗	✗

Sign-in ke niyam: Admin console ka sign-in **alag** hai aur **12 ghante** baad dobara password maangta hai. Visit form aur Reports ek sign-in share karte hain (30 din).

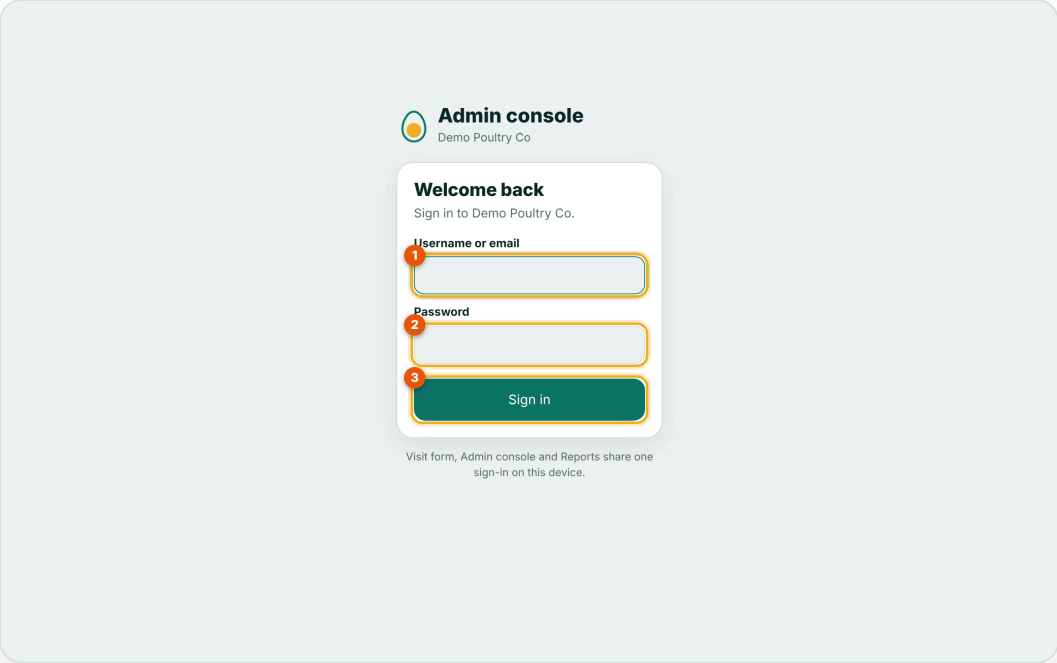

STEP 1

Sign in aur Overview

1 Admin sign in

Sirf **Owner** aur **Admin** andar aa sakte hain. Auditor/Viewer apne page par bhej diye jate hain.

1. Username ya email
2. Password
3. Sign in

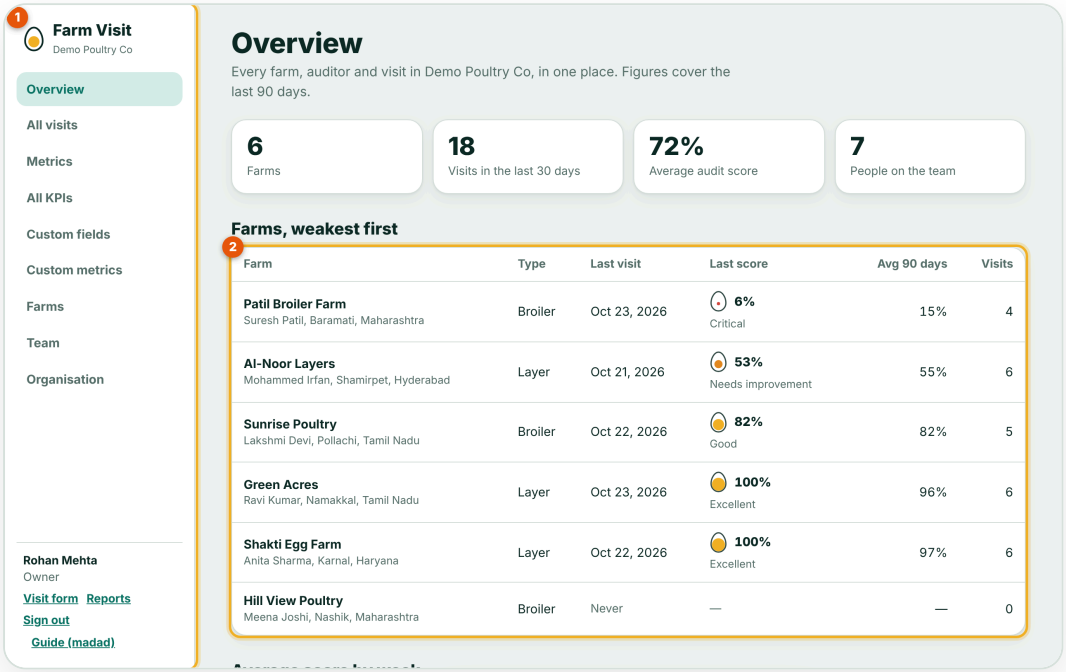

STEP 1

Overview

2 Overview

Upar 4 numbers: farms, pichhle 30 din ke visits, average score, team. Neeche hafte ka score graph, metrics, latest visits aur auditor-wise summary.

1. **Menu** — har section ek kaam
2. **Farms, weakest first** — jin farms par dhyan chahiye, upar

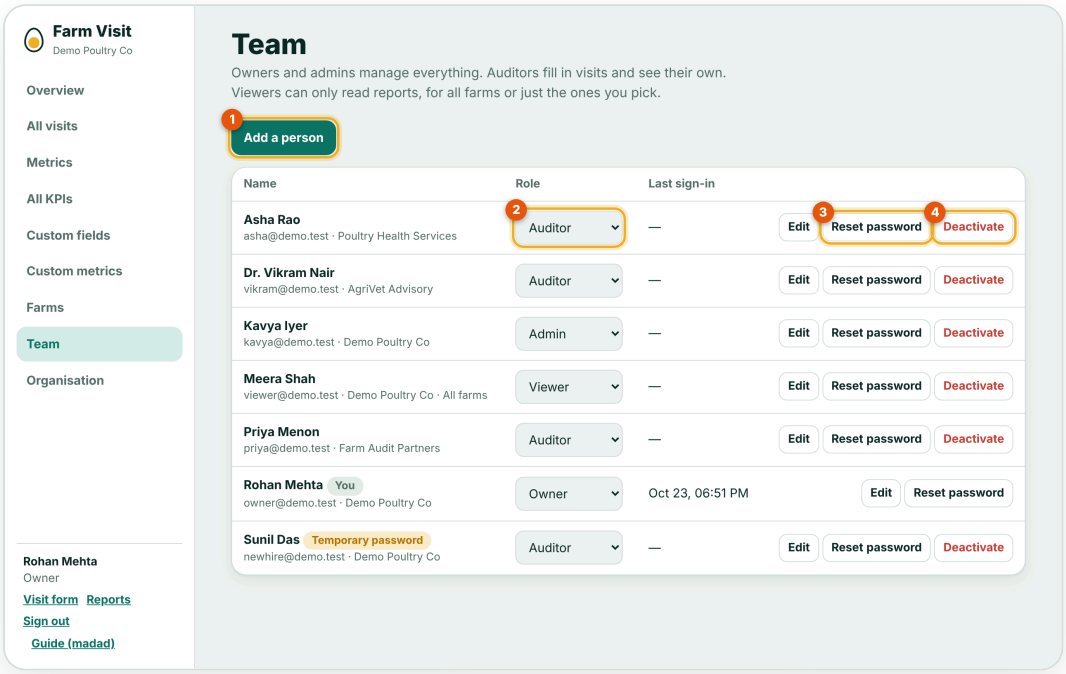

STEP 2

Team — logon ko jodiye

1 Team list

1. **Add a person**
2. **Role** badliye — Auditor / Viewer / Admin
3. **Reset password** — naya temporary password
4. **Deactivate** — sign-in band (visits bane rehte hain)

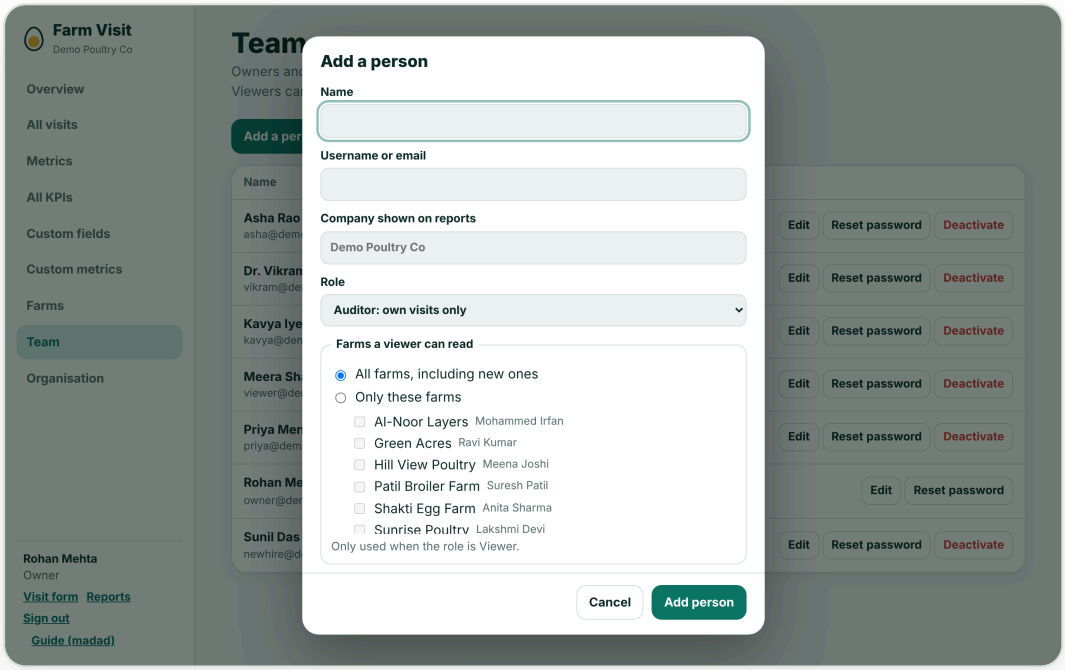

STEP 2

Naya vyakti jodna

2 Add a person

Naam, **username ya email**, company aur role bhariye. Viewer ke liye **All farms** ya sirf chune farms.

Save par ek **temporary password** milta hai — use bhejiye. Wo pehli baar sign in par apna password chunenge.

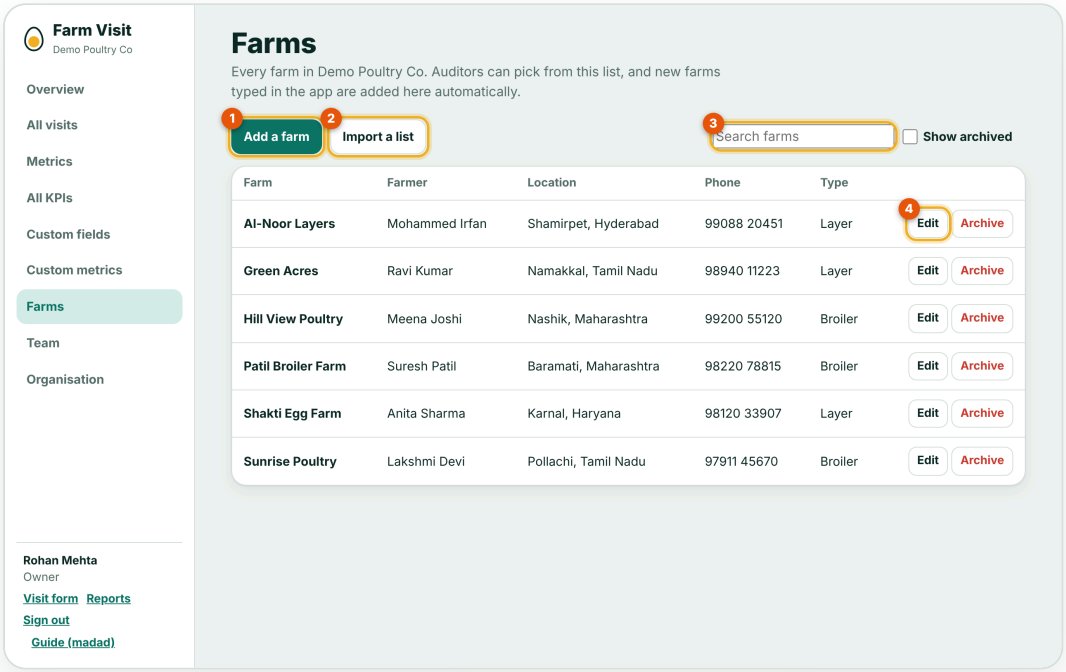

STEP 3

Farms

1 Farms list

1. **Add a farm**
2. **Import a list** — kai farms ek saath paste
3. **Search**
4. **Edit / Archive** — sirf admin

Archive kiya farm list se hat jata hai par uske visits reports mein bane rehte hain. “Show archived” se wapas dekh sakte hain.

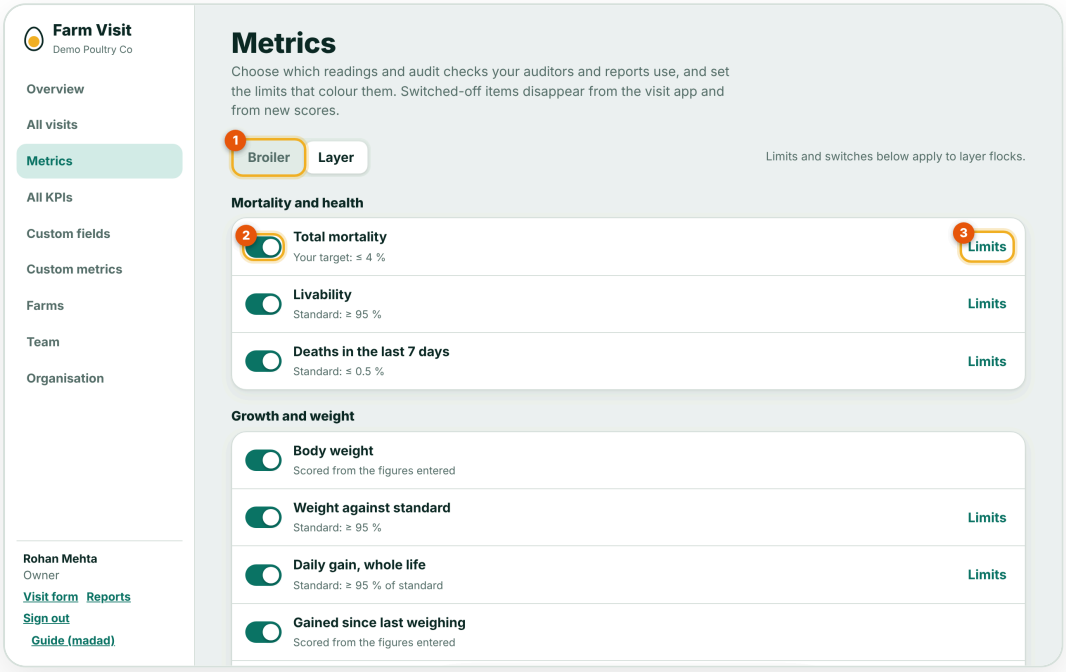

STEP 4

Metrics aur limits

1 Metrics

1. **Layer / Broiler** chuniye
2. **Toggle** — reading ko form aur reports mein dikhaiye ya chhupaiye
3. **Limits** — hara / peela / laal kab ho

Yeh badlav Settings tab mein jata hai. Auditor ke phone par agli baar internet milte hi naye limits lag jaate hain.

STEP 5

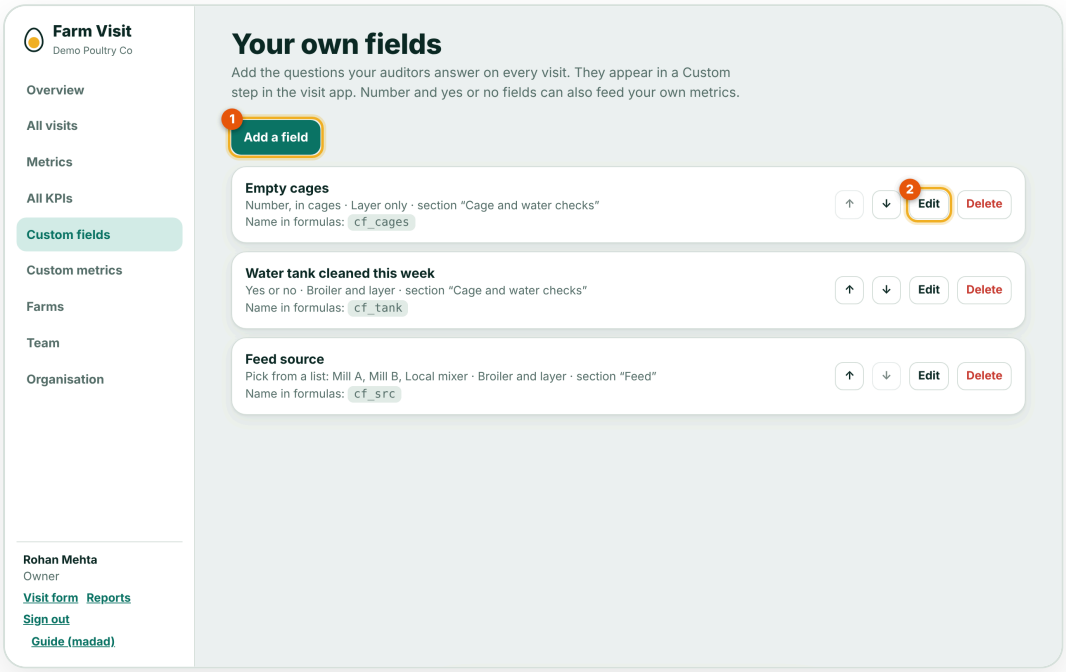

Custom fields aur metrics

1 Your own fields

Custom metrics section mein in fields se formula banakar apni reading banaiye (jaise *cf_cages / placed × 100*), apne targets ke saath.

All KPIs mein saare KPI ek table mein — search, kind filter, aur bird type ke liye All / None.

1. **Add a field** — apna sawaal: number, haan/na, choice, text
2. **Edit**, ↑ ↓ se kram badliye

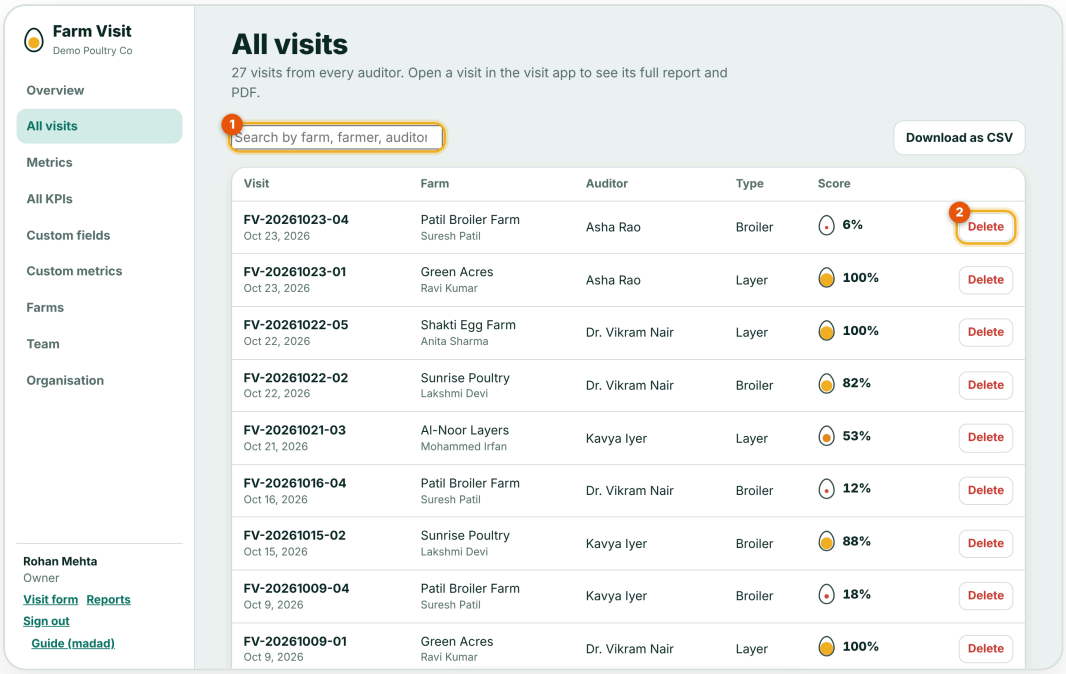

STEP 6

All visits

1 All visits

Download CSV se saare visits Excel mein.

1. **Search** — farm, farmer, auditor ya visit number
2. **Delete** — visit sabke liye hat jata hai (sirf admin)

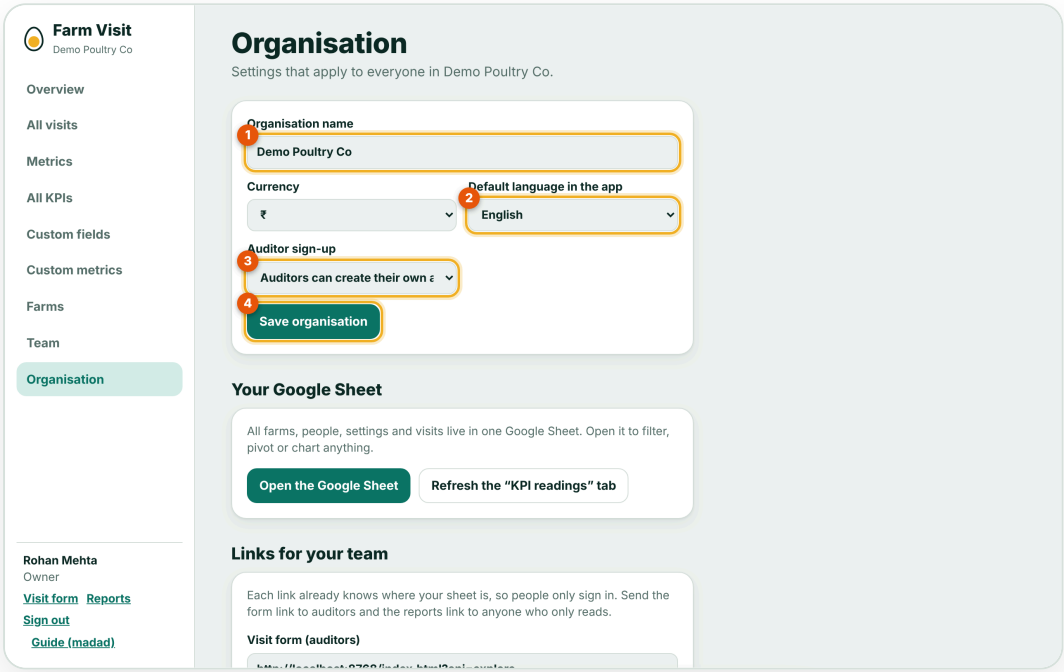

STEP 7

Organisation

1 Organisation settings

1. **Organisation naam** — sign-in aur har PDF par
2. **Default language**
3. **Auditor sign-up** — auditor khud account banayein ya sirf admin jodein
4. **Save organisation**

Sabhi auditor jud jaane ke baad **Auditor sign-up → "Only admins add people"** kar dijiye, warna link wala koi bhi account bana sakta hai.

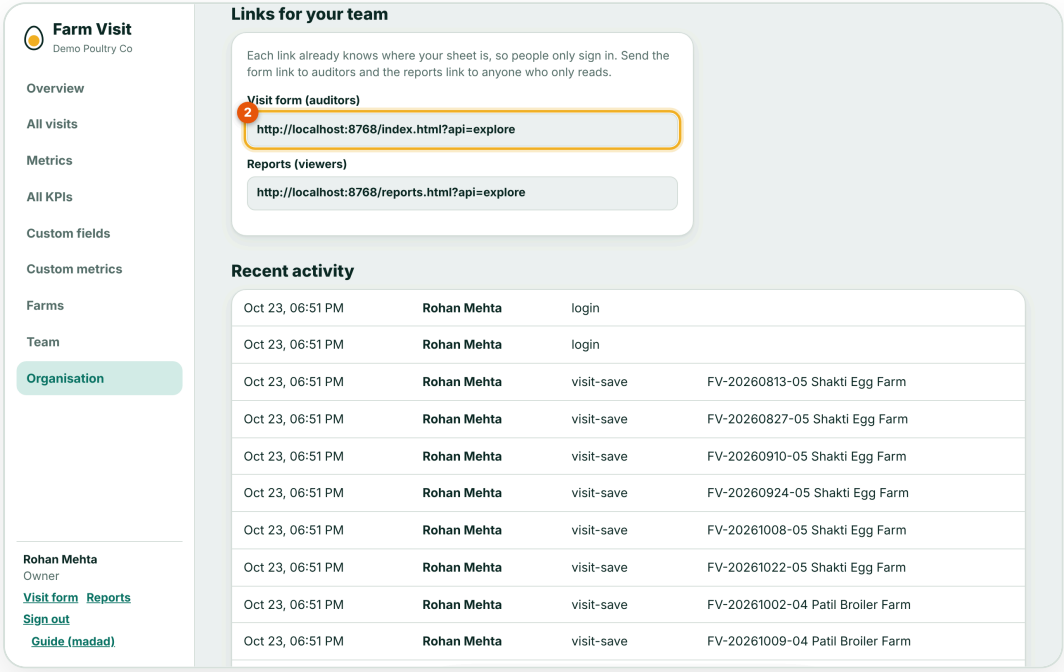

STEP 8

Google Sheet aur team links

1 Sheet aur links

Refresh the “KPI readings” tab — pivot/chart ke liye har reading ki saaf table.

1. **Open the Google Sheet** — saara data
2. **Links for your team** — visit form aur reports ke taiyaar links

✅ Rozana / hafte ka kaam

- Overview mein weakest farms dekhiye
- Naye logon ko Team mein role dijiye
- Galat farm details theek kijiye
- Mahine mein ek baar backup download

⚠️ Dhyan dein

- Sheet ke **tab ya header ka naam na badlein**
- Users / Sessions tab haath se edit na karein
- Sheet kam logon ke saath share karein
- Code.gs badle to **Deploy → New version**
